Day 4: Dialogue Management

Conversation Flow and Integration Processes

As you already know the contact us form has been working alright and is functioning well. But I had to add a conversation flow to handle user interactivity. So there were different parts I added to make the user interaction function well.

First of all, I added a function that is named Alert and inside of it I selected the button with an id of "button". Then I added an "if" condition that when the send button is clicked then the website asks whether you are sure if you want to submit the form. I did this by adding "prompt" and adding a question beside it asking "Are you sure you want to submit the form"

After that, if you enter "yes" or "Yes" the website alerts you and thanks you for submitting the form. I did this by using the "OR" operator to select the text "yes" or "Yes" inside an "if" condition to make it alert "Thank you for submitting the form".

Lastly, if you enter "no" or "No" the website alerts you and says Ok. I did this by using the "OR" operator to select the text "no" or "No" inside an "if" condition to make it alert "Ok".

Any input in the prompt apart from "yes", "Yes", "no" and "No" does not have an alert.

Screenshots of the Conversation Flow

A confirmation dialog box is displayed on a dark gray background. The dialog box is white with a light pink header. The header text is "127.0.0.1:5500 says". Below the header, the text "Are you sure you want to submit the form?" is displayed. A text input field contains the word "Yes". At the bottom of the dialog box, there are two buttons: "OK" (dark brown) and "Cancel" (light orange). Below the dialog box, there is a form with three input fields: "Phone Number", "Thank You", and a "Send" button.

Are you sure you want to submit the form?

Yes

OK Cancel

Phone Number

Thank You

Send

A confirmation dialog box is displayed on a dark gray background. The dialog box is white with a light pink header. The header text is "127.0.0.1:5500 says". Below the header, the text "Thank you for submitting the form!" is displayed. At the bottom of the dialog box, there is a single button: "OK" (dark brown). Below the dialog box, there is a form with three input fields: "John@gmail.com", "Phone Number", and "Thank You", followed by a "Send" button.
